Well-rounded UX Designer with 10 years of experience in web development, graphic design, and user experience

EXPERIENCE

Freelance UX Designer

TechSymphonic — Colorado Springs, CO 2016 to Present
Design wireframes, mockups, and prototypes for a variety of complex applications using different frameworks and languages like VB.net, MEAN.io, Foundation, and Material Angular Framework.

Web Designer

Center for Disease Control (CDC) — Atlanta, GA, 2015 to 2016
Assisted the GRASP team in providing UX support and analysis by conducting usability testing, wireframes, taxonomy, and usability reports. Worked with different teams to design and develop the 508 and W3C compliant UI for web-based analytic dashboards along with logos and icons in a VB.net environment.

UX Designer

Innoppl — Atlanta, GA, 2014 to 2015
Worked in a fast-paced environment to deliver competitive market analysis, high fidelity mockups, wireframes, logos, and infographics. Clients included Sherwin Williams and Outside Magazine.

UX Designer

Bettercloud — Atlanta, GA, 2013 to 2014
Part of a UX team on a startup tech security company developing a web-based SASS application focused on admin management for Google cloud services. Tasks included creating wireframes, mockups, icons, HTML and CSS as well as usability testing, interviews, feature planning, card sorting, and competitive marketing analysis.

UX Analyst

Booz Allen Hamilton — Atlanta, GA, 2012 to 2013
Worked on a team of developers and analyst to design web-based VB.net applications for the CDC while conducting usability research. Tasks included UI development, logos, wireframes, mockups, usability testing, usability interviews, personas, and tasks flows.

Frontend Developer/Graphic Designer

M5 Systems — Austin, TX, 2009 to 2011

SharePoint Administrator

ITT Systems — Bagram Airbase, Afghanistan, 2006 to 2008

Graphic Designer

SYColeman — Baghdad, Iraq — 2006
